

# Mohamed Khaled Mohamed

## Backend Developer | Node.js · Express

Assiut, Egypt (Willing to relocate) | +201092931073 | mohamedkhaleed.dev@gmail.com |  
github.com/Mohamed-k-Dev | linkedin.com/in/mohamedkhaleed-dev

### PROFESSIONAL SUMMARY

---

Results-driven Backend Developer with hands-on experience designing and shipping production-grade RESTful APIs, server-side systems, and database architectures using Node.js, Express.js, MongoDB, MySQL and PostgreSQL. Delivered two live production platforms (50+ API endpoints, 1,500+ records managed) and contributed to a full-stack internship project using containerized infrastructure (Docker). Proficient in authentication systems (JWT, RBAC), Redis caching, and cloud deployment. Eager to join a product-driven team as a junior or mid-level backend engineer.

### FREELANCE PROJECTS

---

#### Backend Developer — Muta7market

2025

##### Sports Marketplace Platform

Freelance

- Designed and implemented 50+ RESTful API endpoints using Node.js and Express.js, powering a sports marketplace serving 85+ users across 15+ sports categories.
- Built user management, talent showcase, and coaching service modules — improving marketplace interaction efficiency by 25%.
- Architected MongoDB data models for players, coaches, services, and bookings with Mongoose ODM and optimized query patterns.
- Developed admin dashboard backend (Next.js + Express) with role-based access control, reducing manual operations by 95%.

**Technologies:** Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT, Next.js, Tailwind CSS

#### Backend Developer — Passahead

2025

##### Question Bank Platform | passahead.com

Freelance

- Built server-side architecture for a question bank platform managing 1,500+ questions across 3 academic subjects using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control (RBAC) for students and admins reducing unauthorized access incidents by 95%.
- Designed RESTful API routes for question CRUD, subject filtering, and user session management consumed by a Next.js frontend. Structured MongoDB collections with Mongoose schemas enabling fast querying and pagination of large question sets.

**Technologies:** Node.js, Express.js, MongoDB, Mongoose, JWT, RBAC, Next.js

### PERSONAL PROJECTS

---

#### SocialHub — Full-Stack Social Media Platform | Node.js · Express · Socket.io · React · Tailwind CSS

- Built a Facebook-like social media platform enabling users to create posts, follow others, and interact through a real-time activity feed.
- Implemented real-time likes and comments using Socket.io WebSockets — reactions broadcast instantly to all connected users without page refresh.
- Developed a real-time private chat system using Socket.io rooms, supporting one-to-one messaging with live delivery indicators and message persistence in MongoDB.
- Designed RESTful API endpoints for post creation, user profiles, follow/unfollow system, and feed generation with MongoDB aggregation pipelines.
- Built JWT-based authentication with protected routes securing all user data and social interactions.

- Structured MongoDB collections for users, posts, comments, likes, and messages with efficient querying and pagination for scalable feed loading.

## TECHNICAL SKILLS

---

**Languages:** JavaScript (ES6), TypeScript, SQL

**Frameworks:** Node.js, Express.js, NestJS, Next.js (API Routes & SSR)

**Databases:** MongoDB (Mongoose), PostgreSQL, MySQL, Redis

**Cloud & DevOps:** Docker, Git, GitHub, Vercel, Netlify, Postman

**Concepts:** RESTful API design, JWT Authentication, OAuth2, RBAC, Caching (Redis), Microservices basics, SOLID principles, Software design patterns, API documentation

## EDUCATION

---

**Faculty of Information Technology** Egyptian E-Learning University

Asyut, Egypt

Bachelor's degree in Computers and Information Technology

Jun 2024

Major GPA: 3.3 / 4.0 (B+)

Graduation Project: Roadx — A roadmap platform designed to guide students through structured learning paths in software development. Grade: A+

## COURSES & CERTIFICATIONS

---

**Information Technology Institute (ITI)**

Aug 2025

Intensive Full-Stack Web Development (MERN stack) — built 15+ full-stack projects covering RESTful API development, authentication, and responsive UI design.

**Root Academy**

Apr 2025

Practical full-stack training — developed 20+ real-world projects and 100+ RESTful APIs covering frontend, backend services, and database integration.

**The Ultimate React Course 2025 (React, Next.js, Redux & More)**

Mar 2026

Built 25+ projects with modern frontend architecture focusing on scalable component design and performance optimization.

## ADDITIONAL INFORMATION

---

**Languages:** Arabic (Native) | English (B2 — Upper Intermediate)

**Soft Skills:** Problem Solving, Strong Communication, Teamwork & Collaboration, Adaptability

**Military Status:** Exemption    **Date of Birth:** 07/07/2001
